

## Título de la actividad:

### **“Homogenization, Spectral problems and other topics in PDE’s”**

Lugar y fecha: Instituto de Ciencias Matemáticas, Madrid, 6-7 de mayo de 2019

#### Organizadores

**José M. Arrieta (UCM-ICMAT)**

**Rafael Orive (UAM-ICMAT)**

**M<sup>a</sup> Eugenia Pérez (Universidad de Cantabria)**

#### Lista de conferenciantes invitados

Victor Arnáiz (CSIC-ICMAT)

Juan Casado (Universidad de Sevilla)

Javier Cueto García (Universidad de Castilla-La Mancha)

Borjan Geshkovski (Universidad de Deusto, UAM)

David Gómez-Castro (Universidad Complutense de Madrid)

Delfina Gómez Gandarillas (Universidad de Cantabria)

Pier Domenico Lamberti (Universitat de Padua)

Daniel Lear Claveras (CSIC-ICMAT)

Faustino Maestre (Universidad de Sevilla)

Debayan Maity (Universidad de Deusto, UAM)

Francisco J. Mengual (CSIC-ICMAT)

Francois Murat (CNRS- Paris VI)

Sergei Nazarov (St. Petersburg State University, IPME-RAS)

Pablo Pedregal Tercero (Universidad de Castilla-La Mancha)

Stefano Scrobogna (BCAMATH)

Manuel Villanueva Pesqueira (Universidad de Comillas)

**Descripción de la actividad:** <https://www.icmat.es/congresos/2019/HSP/>

In this two day workshop we have gathered some relevant researchers in the broad area of PDEs with emphasis in Homogenization and Spectral problems, together with some younger and very active researchers. The aim is to interact and interchange ideas about the research we are doing in the field as well as to provide young researchers the opportunity to present their work.

The activity will start Monday May 6th after 12:00 and will conclude on Tuesday May 7th in the afternoon.

The workshop will take place in the “Blue Room” on Monday and in the “Red Room” on Tuesday, ICMAT.
